Hydrobiologia

The International Journal of Aquatic Sciences

Volume 503, 1 August 2003

Theme

Migrations and Dispersal of Marine Organisms

Guest Editors

M.B. Jones, A. Ingólfsson, E. Ólafsson, G.V. Helgason,
K. Gunnarsson & J. Svavarsson

Preface ix

List of participants xi–xii

DISPERSAL OF MARINE ORGANISMS

Keynote presentations

Community assembly and historical biogeography in the North Atlantic Ocean: the potential role of human-mediated dispersal vectors
J.T. Carlton 1–8

Dispersal at hydrothermal vents: a summary of recent progress
P.A. Tyler, C.M. Young 9–19

Other presentations

Spread of the Chinese mitten crab (*Eriocheir sinensis* H. Milne Edwards) in Continental Europe: analysis of a historical data set
L.-M. Herborg, S.P. Rushton, A.S. Clare, M.G. Bentley 21–28

Characterising invasion processes with genetic data: an Atlantic clade of *Clavelina lepadiformis* (Ascidiacea) introduced into Mediterranean harbours
X. Turon, I. Tarjuelo, S. Duran, M. Pascual 29–35

Shallow-water hydrothermal vents in the Mediterranean sea: stepping stones for Lessepsian migration?
A.M. De Biasi, S. Aliani 37–44

Local population persistence as a pre-condition for large-scale dispersal of *Idotea metallica* (Crustacea, Isopoda) on drifting habitat patches
L. Gutow 45–48

Rafting of benthic macrofauna: important factors determining the temporal succession of the assemblage on detached macroalgae
M. Thiel 49–57

Hitch-hiking on floating marine debris: macrobenthic species in the Western Mediterranean Sea
S. Aliani, A. Molcard 59–67

Diurnal, horizontal and vertical dispersal of kelp-associated fauna
N.M. Jørgensen, H. Christie 69–76

Short-term dispersal of kelp fauna to cleared (kelp-harvested) areas
E. Waage-Nielsen, H. Christie, E. Rinde 77–91

Regulation of species richness by advection and richness-dependent processes in a coastal fish community
K. Lekve, N.C. Stenseth, J. Gjøsæter 93–102

Secondary settlement of cockles *Cerastoderma edule* as a function of current velocity and substratum: a flume study with benthic juveniles
X. de Montaudouin, G. Bachelet, P.-G. Sauriau 103–116

Anchovy egg and larval distribution in relation to biological and physical oceanography in the Strait of Sicily
A. Cuttitta, V. Carini, B. Patti, A. Bonanno, G. Basilone, S. Mazzola, J. García Lafuente, A. García, G. Buscaino, L. Aguzzi, L. Rollandi, G. Morizzo, C. Cavalcante 117–120

Juveniles stick to adults: recruitment of the tube-dwelling polychaete *Lanice conchilega* (Pallas, 1766)
R. Callaway 121–130

Settlement of bivalve spat on artificial collectors in Eyjafjordur, North Iceland
E.G. Garcia, G.G. Thorarinsdottir, S.A. Ragnarsson 131–141

Barnacle larval supply to sheltered rocky shores: a limiting factor?
S.R. Jenkins, S.J. Hawkins 143–151

MIGRATIONS OF MARINE ORGANISMS

Keynote presentations

Go with the flow: tidal migration in marine animals
R.N. Gibson 153–161

A review of the adaptive significance and ecosystem consequences of zooplankton diel vertical migrations
G.C. Hays 163–170

Other presentations

Temporal and spatial variability of mobile fauna on a submarine cliff and boulder scree complex: a community in flux
J.J. Bell, J.R. Turner 171–182

Diatom migration and sediment armouring – an example from the Tagus Estuary, Portugal
T.J. Tolhurst, B. Jesus, V. Brotas, D.M. Paterson 183–193

Life-cycle strategies and seasonal migrations of oceanic copepods in the Irminger Sea
A. Gislason 195–209

Seasonality of harpacticoids (Crustacea, Copepoda) in a tidal pool in subarctic south-western Iceland
M.B. Steinarsdóttir, A. Ingólfsson, E. Ólafsson 211–221

OPEN SESSION

Spatio-temporal distribution of recruits (0 groups) of *Merluccius merluccius* and *Phycis blennoides* (Pisces, Gadiformes) in the Strait of Sicily (Central Mediterranean)
F. Fiorentino, G. Garofalo, A. De Santi, G. Bono, G.B. Giusto, G. Norrito 223–236

Growth aspects of *Flustra foliacea* (Bryozoa, Cheilostomata) in laboratory culture
J. Kahle, G. Liebezeit, G. Gerdes 237–244

Distribution pattern of rays (Pisces, Rajidae) in the Strait of Sicily in relation to fishing pressure
G. Garofalo, M. Gristina, F. Fiorentino, F. Cigala Fulgosi, G. Norrito, G. Sinacori 245–250

Distribution of tintinnid species from 42° N to 43° S through the Indian Ocean
M. Modigh, S. Castaldo, M. Saggiomo, I. Santarpia 251–262
